

**National Interagency Coordination Center
Incident Management Situation Report
Thursday, April 5, 2007 - 1000 MDT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (196 new fires)
 New large fires: 1
 Large fires contained: 2
 Uncontained large fires: 2
 Area Command Teams:
 Type 1 IMTs committed:
 Type 2 IMTs committed:
 Fire Use Teams:
 ** Uncontained large fires do not include WFU or confine/contain incidents. **

Eastern Area (PL 1)

New fires: 2
 New large fires: 0
 Uncontained large fires: 1

Pocket Eddy, Mark Twain National Forest. Five miles west of Blooming Rose, MO. Hardwood Litter. No new information reported.

AVIATION MISHAP RESPONSE ACTIONS

Having a written mishap response action posted and accessible to all employees is an important first step. Having a list of actions to follow will ensure that nothing is missed in a stressful, time-critical period.

- Immediate, positive action is necessary. Any delay may affect someone's chances of survival.
- Conduct rescue operations keeping the following priorities in mind:
 - Preserve life.
 - Do whatever is necessary to extricate injured occupants and to extinguish fires, keeping in mind the necessity of protecting and preserving evidence.
 - Document and/or photograph the location of any debris that must be disturbed in order to carry out rescues and/or fire suppression activities.
 - Secure the area. Treat the crash site as a crime scene.
 - Arrange for security at the accident scene if necessary. Determine if hazardous materials were on the aircraft. Deny access except to credentialed officials and escorted media
- Be aware that crash sites can be dangerous due to hazardous cargo, flammable and toxic fluids, sharp objects, disease, adverse terrain, hot/cold weather conditions, and fire.
- Exercise good judgment, utilize available protective devices and clothing, and use extreme caution when working near the wreckage site.
- Do not exceed your physical limitations.
